25th October 2024

Dear Parents and Carers

Bring Your Own Device Stage Three

As you would be aware Engadine Public School utilises a BYOD strategy for year 5 and 6. This strategy has enabled students in stage 3 to access one to one technology during class times.

Several parents have enquired about appropriate devices and purchasing options. Engadine Public School does not have any current agreements or arrangements in place with companies to facilitate purchases. Rather, we have elected to refer you to a range of companies that can facilitate individual purchase of education edition devices.

A reminder that when considering a device for your child, please consider the following:

- Minimum 10" screen
- Battery life to last the whole school day or preferably longer
- Physical keyboard
- Weight of device

Please note that we do not have any arrangements or links with the following companies and we do not receive any benefits from them. We are simply listing some options for parents considering purchasing new education edition devices.

- School Locker - <https://theschoollocker.com.au/departments/technology/notebooks>
- Learning with Technologies - <https://school.orderportal.com.au/>
- Officeworks - <https://www.officeworks.com.au/education/byod>

At the beginning of 2025 you will receive a BYOD document outlining the expectations for students and parents. In order for students to utilise their devices these expectations will need to be agreed to, and signed forms returned to classroom teachers. More information regarding this will be provided in early 2025.

If you have any questions regarding BYOD or specific devices, please contact the school.

Kind regards,
Stage Three Teachers

Sara Swift
Principal
